Abstract (en)  
[origin: WO2017042311A1] The present invention relates to an assembly (1) comprising: an intake duct (4) extending between an air intake (11) and a heat engine (2); a heat engine (2); an electric compressor (5) arranged on the intake duct; a bypass circuit (510) of the electric compressor; a bypass valve of the electric compressor (5) arranged on the bypass circuit (510), the electric compressor (5) being configured to allow the control of the bypass valve (52).
