Abstract (en)

[origin: WO2017042386A1] The transporting device (10) comprises a support structure (30), intended to be arranged in the vicinity of the launching tube (16), a first pulley (36), borne by the support structure (30), a conveying structure (40), intended to be arranged between the transport carriage (14) and the launching tube (16), and comprising means (42) for receiving and guiding the torpedo (12), and a structure (52) for driving the torpedo (12), comprising a winch (54), an anchoring means (58) intended to be fastened to the torpedo (12), and a driving cable (60) extending at least partially between the winch (54), around which it is partially wound, and the anchoring means (58), passing over the first pulley (36).
