Abstract (en)

[origin: WO2017046054A1] The invention relates to a perfume composition containing at least one odor modulator compound, at least one odoriferous aldehyde and/or odoriferous ketone and an amino alcohol for increasing the odor intensity of the perfume composition, and to a consumer product containing a perfume composition of this type. The invention also relates to a method for increasing the odor intensity of the perfume composition and to the use of at least one odor modulator compound, of at least one odoriferous aldehyde and/or odoriferous ketone and of at least one amino alcohol for increasing the odor intensity of the perfume composition.
