Abstract (en)
[origin: WO2017051131A1] Method of manufacturing moulding elements (5) intended to be assembled in a mould for moulding a tread of a tyre, the method involving: a) a step of aligning, on a base support (4), a plurality of base elements (1); b) during the alignment step, a step of fitting at least one insert (9) between two adjacent base elements in the alignment, the insert comprising an external part (10) projecting from the two base elements in an opposite direction to the base support (4) and an internal part (11) separating the two base elements; c) a step of obtaining an intermediate support (3); d) a step of obtaining at least two moulding elements (5), the two moulding elements (5) being separated by the internal part (11) of the insert (9).
