Abstract (en)  
[origin: CN108342826A] The invention relates to a loop forming tool guide bar and a loop forming tool holder, in particular to a loop forming tool guide bar (1) with a body (2) having a longitudinal direction and a loop forming tool receptacle (5). The loop forming tool receptacle (5) has a plurality of grooves (6) extending transversely to the longitudinal direction, in which loop forming tools (4) are releasably arranged. A warp knitting machine can be operated economically. For this purpose, the loop forming tool receptacle (5) is arranged at the loop forming tool holder (11), which is detachably fastened to the body (2).
