Abstract (en)  
[origin: WO2017055683A1] The invention relates to a packaging box and to a detachable lid structure (25) integrated into it. The packaging box is formed from a base surface (1), the folding surfaces (2) of the long sides of the box, the vertical surfaces (3) of the short side in such a way that the vertical surface (3) is folded into a vertical attitude from the crease (22) between the vertical surface (3) and the base surface (1) and into the horizontal plane from the crease (17) between the vertical surface (3) of the short side and the stacking plane (4). What is essential in the invention is that a shaped tongue (15) is formed on the outer ends of a stacking plane (4), and the corner (27) of the lid structure (25) is guided to slide under the shaped tongue.
