Abstract (en)
[origin: WO2017058087A1] The present invention discloses a slider (100) for weight dependent release of a thereto attached load (400) when being in cooperation with a stationary guide (200). The slider (100) comprises an internal element (110), an intermediate element (120) and a releasing element (130). A slider assembly (500) and a curtain assembly are also described.
