Abstract (en)

[origin: WO2017059908A1] The present invention relates to an adjustable hinge assembly (1) for use in a refrigerator comprising a main body which includes one or more refrigeration compartments and respective pivotable doors. The adjustable hinge assembly (1) comprises a base bracket (2) to be fixed to the main body. The adjustable hinge assembly (1) of the present invention further comprises an intermediate bracket (3) which is vertically movably disposed onto the base bracket (2), a bearing bracket (4) which is horizontally movably disposed onto the intermediate bracket (3), wherein the bearing bracket (4) includes a pivot (5) for engaging with the respective pivotable door.
