Abstract (en)

[origin: WO2017065665A1] Buttbag made of a flexible plastic film where the bottom edge is folded or welded to the bottom of the bag (3), both side edges (4) are welded together and the top edges (5), which can be opened, are fitted with a zipseal or adhesive, characterised by, that the both inner sides of the bag has close to the opening resisting /isolating plates (6), that on the outsides of the bag and outside the plates there are plastic loops (8) on the outside of the bag, in line with the plates, with the loops ends (9) fixed and the loops shaped to allow a thumb/finger to hook into each one such that the bag zipseal can be opened by spreading the thumb/finger; the finished cigarette can be extinguished by placing the glowing tip between the plates (6) and pressing them together with the thumb/finger.
