Abstract (en)
[origin: EP3363336A1] The present application relates to a door frame (2) for a door comprising a container device (1). The container device (1) is suitable for receiving deliveries and may be removably secured to the door frame (2) so that, when the container device (1) is secured to the door frame (2), the space surrounded by the door frame (2) is closed by the container device (1).
