Abstract (en)

[origin: CA3002887A1] The invention relates to a floor drain (1) comprising an elongate housing (2), said housing having a base wall (3), two side walls (4, 5) extending in a longitudinal direction, two end walls (6, 7) connecting the side walls (4, 5) to one another, and a ceiling wall (8) provided with an elongate inlet opening (10) extending in the longitudinal direction (L), and further comprising an outflow connection piece (11) extending outwardly from the base wall (3) or one of the side walls (4, 5) or one of the end walls (6, 7) for the connection of a drain tube, wherein the inlet opening (10) ends in each case at a distance to the front-side ends of the ceiling wall (8) and at a distance to at least one of the side walls (4, 5), so that a receiving flange surrounding the inlet opening (10) is formed, on which a sealing gasket (14) is or can be attached.
