Abstract (en)

[origin: WO2017072197A1] The invention relates to a device and a method for producing bristle arrays for brushes. A device for producing bristle arrays for brushes comprises separated bristle clusters (20) which are conveyed through channels (22) by compressed air. A projectile (30) driven by compressed air is shot through the channel (22), pushing the bristles in front of it, in order to convey same. The invention also relates to a corresponding method.
