Abstract (en)

[origin: WO2017072293A1] The invention relates to a method for manufacturing a non-woven abrasive article, wherein non-woven fibers made of a certain starting material are subjected to the method steps of forming a non-woven web and then consolidating the non-woven web. In order to improve the homogeneity and the reproducibility of the obtained non-woven abrasive article, prior to the method step of forming the non-woven web and/or prior to the method step of consolidating the non-woven web, the non-woven fibers are coated with abrasive grains in such a way that the abrasive grains adhere to the starting material.
