Abstract (en)

[origin: WO2017071936A1] The invention relates to a data page, in particular for a book-like document, and to a method for the production thereof, comprising at least one single page (27) for applying and/or storing data, and at least one flexible tab (23), which is connected to the at least one single page (27) in an overlapping area (30) and which comprises a projecting free tab area (31). A tab section (34, 35) of the at least one tab element (32) is arranged on an upper side and on a lower side of the single page (27) respectively in the overlapping area (30) and is connected to the upper and lower side of the single page (27).
