Abstract (en)
[origin: EP3369921A1] Systems and apparatuses include an engine (30) including a fuel tank (34), a carburetor (42) including a throttle valve movable between a first throttle position and a second throttle position, a governor system (54) configured to move the throttle valve, and a speed control system (38) including a control lever (46) defining a first actuation distance, and a bellcrank (50) movable between an idle position and a high speed position and coupled to the governor system. The bellcrank (50) defining a second actuation distance that is different than the first actuation distance.
