Abstract (en)
[origin: WO2017076917A1] The invention relates to a submersible of the type comprising an on-board high-pressure air supply system (2) and means (1) for manoeuvring at least one mast of said submersible, for the raising and lowering of same, where the manoeuvring means are connected to oleopneumatic means (3) comprising a first hydraulic part (4) for moving the mast and a second pneumatic part (5) for pressurising the first part using the on-board high-pressure air supply system of the submersible.
