Abstract (en)
An extendable luggage (1) comprises a first shell (10) having a first opening edge (11), a second shell (15) having a second opening edge (16), an inner zipper (20), an outer zipper (40) and an inner strap (60). The inner zipper (20) has outer teeth (43) located at a first and second distance (D1, D2) away from the first and second opening edges (15, 16), respectively. The outer zipper (40) has two outer tapes (41) and outer teeth (43). Each outer tape (41) has a straight section (49), a head section (51) and a tail section (53). The outer teeth (43) located at distal ends of the two head sections (51) and two tail sections (53) are closed and unable to be opened. The outer teeth (43) located at the two straight sections (49) are located at a third distance (D3) away from the first opening edge (11) and a fourth distance (D4) away from the second opening edge (16). The inner strap (60) is connected with two ends of the inner zipper (20). Accordingly, the extendable luggage (1) looks simple and is extendable.
