Abstract (en)
[origin: WO2017080563A1] A blender (66) for batch blending an oil having a first TBN with a composition having a second TBN higher than the first TBN to produce a blended composition having a desired third TBN for use as a cylinder oil in a two-stroke compression ignited crosshead combustion engine (1). The blender (66) comprises an inlet port for receiving the oil and for receiving the composition, a discharge port for discharging said blended composition, a blending tank (63) with a tank inlet and a tank outlet.
