Abstract (en)
[origin: WO2017081381A1] The invention relates to a light illuminating device (1) for a motor vehicle, the illuminating device (1) comprising at least one diode (2) capable of emitting light and a reflector (3) capable of reflecting the light emitted by said diode (2), the illuminating device (1) being remarkable in that it comprises a protection member (4) having a shape similar to the reflector (3), the reflector (3) and the protection member (4) being separated from each other.
