Abstract (en)
[origin: WO2017084947A1] The present invention relates to an applicator (2) for applying a cosmetic product to the skin, notably the eyelids, comprising an applicator member (10), the latter having, on its external surface, an indentation (12) and a substantially flat main facet (20) situated between the indentation (12) and the distal end (25) of the applicator member (10), the width of the main facet (20) increasing with increasing distance from the indentation (12), at least along a major part of the length of the main facet (20).
