Abstract (en)

[origin: WO2017084827A1] The invention relates to a method for operating a dish washing machine (1), in particular a domestic dish washing machine, wherein a rinsing of goods to be rinsed that are arranged in the interior (2) of the dish washing machine (1) is carried out during a rinsing program. The method comprises a determining (101, 201) of an amount of at least one specific gas in the interior (2) during the rinsing program, and a starting (102, 202) of a hygiene program and/or an indication to a user of the dish washing machine (1) relating to a start of the hygiene program depending on the determined amount of the at least one specific gas.
