Abstract (en)
[origin: WO2017086897A2] The present invention relates to a mounting bracket (1), which is formed for mounting curved vehicle windows (K) on the vehicle body shell (S), which basically comprises at least one intermediate piece (2); which is comprised of a body (21) located between curved vehicle window (K) and the vehicle shell (S) on which the window (K) is fixed, a lower surface (22) on which the window (K) is fixed, and an upper surface (23) parallel to the shell (S); and which includes at least one slot (24) in the form of a hollow which is located on the upper surface (23) of the body (21); and at least one connection pin (3), which, from one part thereof, fits into the slot (24), and which, from the other part thereof, is engaged into the mounting hole of the vehicle shell (S) thereby enabling the window (K) to be fixed on the vehicle shell (S) via the intermediate piece (2).
