Abstract (en)

[origin: WO2018145681A1] The invention relates to a pre-chamber spark plug, comprising a housing (3), a ground electrode, a cap (9), which closes the pre-chamber (5), and a central electrode (6, 7), which is arranged within the pre-chamber (5), transfer passages (10) being formed in the cap (9), whih pre-chamber spark plug is characterized in that the center axes (11) of the transfer passages (10) diverge as viewed in the direction of the main combustion chamber. The invention further relates to a method for producing such a pre-chamber spark plug.
