Abstract (en)

[origin: CA2984683A1] Modular structure (1) comprising: - a plurality of modules (2), each module (2) having a basic element (5) comprising a basic body (6) that is identical to the basic bodies (6) of the basic elements (5) of the other modules (2), and a facade element (20) chosen from a range of facade elements that each have different functionalities, the basic element (5) and the facade element (20) of each module (2) being designed to be mounted removably one on the other such that the facade element (20) covers at least a part of a front face (7) of the basic element (5), - a plurality of connectors (30) that are each designed to connect two modules (2) disposed adjacently, each connector (30) having a connector body (31) that is identical to the connector bodies (31) of the other connectors (30).
