Abstract (en)

[origin: EP3381327A1] Shelf (11, 21) for metal shelving comprising at least a downside beam (13, 23) said beam having a shape of an upside-down omega comprising two vertical walls (16, 26) perpendicular to the shelf itself, and a horizontal wall (14, 24) parallel to the shelf itself, provided with a trimming to facilitate the assembly of the shelf and optionally allow the passage and the support of an electric wiring (25), characterized in that said trimming (17, 27) is obtained in each vertical wall (16, 26) and in the horizontal wall (14, 24) of said beams (13, 23) at a suitable distance from the downside (12, 22) of the shelf itself.
