Abstract (en)

[origin: WO2017093995A1] A screed fastener, configured to fasten an elongated rigid member to a surface, for example a surface to be plastered, the screed fastener comprising a fastening member and a screw, wherein the fastening member comprises: at least one clamping part configured to tightly grip the elongated rigid member; and at least one opening through which the screw may be screwed into the surface, and wherein the screw is configured to anchor the fastening member to the surface, wherein the screw comprises a bolt head. Further embodiments of the screed fastener and methods for using the same are disclosed herein.
