Abstract (en)

[origin: WO2017097293A1] The invention relates to a device for detachably connecting textiles, comprising four fixing elements (1, 2, 3, 4), wherein the first and the second fixing elements (1, 2), the second and the third fixing element (2, 3), and the third and the fourth fixing element (3, 4) can respectively be detachably connected to one another by latching in one another, wherein the textiles (5, 6) to be connected are arranged between the first and the second fixing element (1, 2) and the third and fourth fixing element (3, 4), without penetrating the textiles. The invention further relates to the use of a device according to the invention for detachably connecting textiles.
