Abstract (en)  
A toilet lid, comprising a main body, and a removeable top cover, wherein the toilet lid comprises a magnetic attachment means for releasably attaching the removeable top cover to a top surface of the main body, wherein the magnetic attachment means comprises: a first magnetic part arranged on the main body, and a second magnetic part arranged on the removeable top cover, so that a magnetic attachment force is created when the first magnetic part is put in the vicinity of the second magnetic part, wherein one of the first and second magnetic part comprises a sheet of ferromagnetic material. A toilet seat comprising such a toilet lid. A removeable top cover for engagement with a main body of a toilet lid.
