Abstract (en)

[origin: EP3388774A1] A header pipe (1) for a heat exchanger (100), and a heat exchanger (100). The header pipe (1) comprises: a first header pipe portion (11) extending in the axial direction of the header pipe (1) and having a first edge (111) and a second edge (112) that extend in the axial direction; and a second header pipe portion (12) extending in the axial direction of the header pipe (1) and having a first edge (121) and a second edge (122) that extend in the axial direction, wherein the first edge (111) of the first header pipe portion (11) is connected to the first edge (121) of the second header pipe portion (12), and the second edge (112) of the first header pipe portion (11) is connected to the second edge (122) of the second header pipe portion (12). The header pipe (1) of the present invention is easy to assemble, and improves the welding efficiency and welding quality.
