Abstract (en)

[origin: WO2017103049A1] The invention relates to a device for fixing a front panel (4) to a side frame (5) of a drawer (3) in a detachable manner, comprising at least one holder (8) which can be fixed to the front panel (4) and a locking mechanism associated with the side frame (5), which mechanism has at least one bolt (10) that is pre-stressed by an energy accumulator (12), which can be engaged with the holder (8) that can be inserted in a direction of assembly for locking, wherein the holder (8) is supported by a counter bearing (20), wherein the counter bearing (20) can be moved into an unlocking position, and the holder (8) can be moved with the front panel (4) in a direction which is different to the direction of assembly for an unlocking process. In addition, the invention relates to a drawer comprising a device of this type and a method for assembling and disassembling a front panel.
