Abstract (en)
A method of producing a dyed textile, which method comprises a step of a) providing a plurality of weft threads and a plurality of warp threads, a step of b) impregnating the warp threads with a solution containing a polymer selected from chitosan or derivatives thereof, a step of c) weaving the weft threads and the warp threads to obtain a textile, a step of d) dyeing the textile with a dye composition and a step of e) drying the dyed textile. The dye composition comprises a predetermined amount of graphite and no intermediate processing steps are provided between said dyeing step d) dyeing and said drying step e).
