Abstract (en)

[origin: WO2017108035A1] The invention relates to a printed article (1), comprising a visible surface (2) and a printed surface (3), arranged in the region of the visible surface (2), wherein the printed surface (3) is printed with a halftone (4), wherein halftone dots (5) are arranged at a respective consistent distance along halftone lines (6), each of which is an arc. The invention also relates to a method for checking the authenticity of a printed article and an article system.
