Abstract (en)

[origin: WO2017116967A1] A nozzle (304) for a welding torch includes a body portion defining an internal bore, a discharge orifice (312), and an internal radius on the internal bore proximate to the discharge opening. The nozzle comprises further six flat surfaces (332) that define a hexagon, each of said flat surfaces (332) being a portion of a circle.
