Abstract (en)
[origin: WO2017129241A1] The invention relates to a play tent (10), comprising a rod assembly (12), a flexible tent wall (14), which is held on the rod assembly (12) in an assembled state of the play tent (10) such that the tent wall (14) encloses a tent interior (16), comprising a lighting device (18, 20), which comprises an electrically operated lighting means, and comprising a holding means (22) for holding the lighting device (18, 20), wherein the holding means (22) is connected to the tent wall (14) or to the rod assembly (12) and is designed, in the assembled state of the play tent (10), to hold the lighting device (18, 20) on a predetermined section of the tent wall (14) on a side of the tent wall (14) facing the tent interior (16).
