Abstract (en)  
[origin: GB2546551A] A workbench comprising: a supporting framework 205; a work surface; a canopy comprising top 130, back 121 and side walls 122, 123 which are aligned with front of the top; where there is a gap between a lower edge 124, 125 of the side and the work surface in order to load a long workpiece 103 onto the workbench. Preferably, the gap extends the full depth of the workbench. Preferably, curtains 201,202 prevent escape of pollutants. Preferably the lower edges are parallel to the work surface. Preferably, forward edge of canopy comprises curtains 203 comprising elongate strips. Preferably, work bench comprises closable and lockable doors. Preferably, canopy is detachable. Preferably, work bench is vibration absorbing, sound insulated, illuminated, vented and comprises a vice. A support arm 209 extends parallel to long axis of work surface. Preferably, is slidably extendable, and comprises roller bearing and support leg.
