Abstract (en)
[origin: WO2017129216A1] The invention relates to a liquid-crystalline medium comprising one or more compounds of formula BO, wherein the parameters have the meaning indicated in claim 1. The invention also relates to the use of the liquid-crystalline medium for electro-optical purposes, in particular in liquid crystal light valves for lighting devices for motor vehicles, to liquid crystal light valves containing said medium, and to lighting devices for motor vehicles, comprising liquid crystal light valves of said type, and to compounds of formula BO.
