Abstract (en)

[origin: WO2017089793A1] An attachment mechanism is provided for attaching a toilet seat and/or lid to a toilet pan in use. The attachment mechanism includes a body portion having engagement means provided on or associated therewith for engaging at least part of a toilet seat and/or lid to the body portion in use. Attachment means are provided for attaching the body portion to the toilet pan in use. The attachment means includes vacuum or suction means or a vacuum or suction mechanism.
