Abstract (en)

[origin: WO2017133989A1] The invention relates to a method for machining and/or producing a component (1), comprising the following steps: i) providing a component (1) or a semi-finished product comprising a base body (2) with a first surface (3) and a first surface coating (5) provided on the first surface (3); ii) scoring the component (1) or the semi-finished product on the first surface (3) coated with the first surface coating (5), at least part of the scoring first surface coating (5) remaining intact along scored surfaces (7), and iii) severing, perforating or cutting the component (1) or the semi-finished product along the scoring (8).
