Abstract (en)
[origin: EP3412463A1] The present invention relates to an ink cartridge. The ink cartridge is detachably installed in an installation structure of a printing device, and the ink cartridge includes a housing and a buckle, where the buckle is disposed on the housing, the buckle can be clamped with a force application component of the printing device to fix the ink cartridge in the installation structure, and the buckle can be separated from the force application component, to unfix the ink cartridge from the printing device.
