Abstract (en)
[origin: CN109025489A] The present invention relates to a button sprocket device (10) having a button sprocket (12) and an operating element (14) coupleable with the button sprocket (12), wherein the button sprocket (12) includes a first member (12A) rotatably supported and a second member (12B) rotatably supported, which can be coupled to each other by a first coupling device (20), and to a The lock (1) of the button sprocket device (10). According to the invention, the second coupling device (30) couples the first member (12A) or the second member (12B) of the button sprocket (12) with the steering element (14).
