Abstract (en)

[origin: EP3415028A1] A three-dimensional sock-shoe includes a shoe sole (11), a sock body (21) having a bottom portion (211) connected to the shoe sole (11), and a foam sleeve (22) inserted into the sock body (21). The foam sleeve (22) has a shape corresponding to that of the sock body (21), defines a three-dimensional foot space (221), and is made by stitching together at least two layered structures (220). The foam sleeve (22) successively consists of an inner lining layer (222), a foam layer (223) and an outer fabric layer (224). At least one adhesive layer (23) is disposed between the outer fabric layer (224) and the sock body (21) to adhere the outer fabric layer (224) to the sock body (21).
