Abstract (en)

A method for stretching pelts comprises the steps of: a. fastening the lower end of the pelt board (3) in a pelt board-holding device (10), b. gripping a lower end portion (14) of the pelt body of a pelt (2) arranged on the pelt board in a pelt body-gripping device (13) comprising pelt body-gripping elements (17,18) c. gripping the tail (25) of the pelt (2) in a tail gripping device (21) comprising a tail gripping element (22) d. stretching the pelt (2) by effecting a relative longitudinal displacement in the longitudinal direction of the pelt board (3) between the pelt body-gripping device (13) and the pelt board-holding device (9) and additionally stretching the pelt (2) by effecting a relative longitudinal displacement in the longitudinal direction of the pelt board (3) between the tail gripping device (21) and the pelt body-gripping device (13), and e. fixing the pelt to the pelt board in the stretched position
