Abstract (en)

[origin: CA3007923A1] The invention relates to a machine for installing a drain in the ground, the machine including: a driving pipe with a longitudinal axis and having a lower end; a movement device for moving the driving pipe in a direction parallel to the longitudinal axis; a drain extending inside the driving pipe and having a lower end extending outside the driving pipe; at least one anchor; an attachment device (70) for attaching the anchor to the drain; a member for cutting the drain (18) arranged below the attachment device. The machine according to the invention also includes a cutting device (60) for cutting the anchor into a strip (54).
