Abstract (en)
The invention relates to a method for applying inserts in a panel (1) or similar element, said method comprising the steps of: providing a panel (1) in which is defined at least a first lateral edge; providing a first tool (2); forming, by means of said first tool (2), at least a first cavity (3) extending along a first predetermined direction on a portion of said at least a first lateral edge; providing at least a first insert (5); providing a pressing device (4); and inserting said at least a first insert (5) in said at least a first cavity (3) moving said pressing device (4) along said at least a first lateral edge from a first position to a second position in such a way that said pressing device (4) pushes said at least a first insert (5) inside said at least a first cavity (3) progressively along said first predetermined direction.
