Abstract (en)

[origin: WO2017144276A1] The present invention relates to a polyamide composition which is dyed in black, comprising a chromium-containing azo dye in the form of a 1 : 2 chromium complex, to the production of such a polyamide composition and to the use thereof for the preparation of polyamide molded bodies and fibers, which are dyed in black. The invention further relates to a method for laser welding using at least one molding part on the basis of such a polyamide composition.
