Abstract (en)
[origin: WO2017144365A1] The present invention relates to the field of enzyme technology, in particular the optimization of surfactant-enzyme mixtures, as used, for example, in washing or cleaning agents. The invention relates to an agent, in particular a washing or cleaning agent, which contains at least one enzyme and a special surfactant mixture. The present invention further relates to a method for cleaning textiles or hard surfaces and to the use of the agent according to the invention for removing stains.
