Abstract (en)
[origin: CN109112714A] The present invention relates to a warp knitting tool bar (1). The warp knitting tool bar (1) has a main body (2) and a warp knitting holding portion (3), the main body has a vertical direction. The high operation speed of a warp knitting machine is achieved through a proper cost mode. The main body (2) has a skeleton structure, the skeleton structure is provided with a lots of main body bars (4-11), and the lots of main body bars are connected at the nodes (12-15).
