Abstract (en)

[origin: EP3422653A1] The present invention relates to a wireless communication system and, particularly, to: a method comprising the steps of acquiring information on the Nr number of receiving beams of a base station, transmitting a first OFDMA symbol having Nr number of SRS symbols, and transmitting a second OFDMA symbol having Nr number of SRS symbols, wherein SRS symbols in the same OFDMA symbol are transmitted in the same transmission beam direction, and SRS symbols in different OFDMA symbols are transmitted in different transmission beam directions; and a device for the same.
