Abstract (en)
[origin: WO2017147739A1] A pharmaceutical composition is provided, whereby the composition comprises a polyurethane. Furthermore, a composition comprising a polyurethane for use as a pharmaceutical product is provided. A composition comprising a polyurethane for use in the protection of a surface against pollutants is provided. Further, a use of a composition comprising a polyurethane as protection of a surface against dust. A polyurethane composition for protecting a surface of a human or an animal against pollutants is provided. A multi-layer structure comprising at least two layers A) and B), wherein layer A) comprises a polyurethane, wherein layer B) is different from layer A) is provided. Also, a method for increasing the removability of a potential pollutant from a surface is provided as well as a film comprising polyurethane with various specific features is provided.
