Abstract (en)
[origin: WO2017148174A1] An array substrate, a manufacturing method thereof, and a display apparatus are provided to improve the light reflection phenomenon on the array substrates and improve the display effects of the display apparatus. The array substrate includes a transparent substrate (10), a plurality of components disposed on a first side of the transparent substrate (10), and a shielding pattern (123), disposed on a second side of the transparent substrate (10), and configured to shield light reflected from a surface of at least one of the plurality of components.
